

## Center For Limnology SCUBA Checklist

This list serves as a briefing to mandatory steps needed for diving as a CFL employee. It is not exhaustive and does not serve as a substitute for reading the Safety Manual.

### Upon Employment:

1. Provide copy of SCUBA certification to both administrative office and to Dive Safety Officer.
2. [Register](#) on Limnology SCUBA website to set up a diver profile and access the SCUBA [safety manual](#).
3. Read the SCUBA safety manual.
4. Get supervisor approval for diving. This is Appendix A of the diving manual.
5. Complete medical physical using documents from Appendices B, C, and D in diving manual.
6. Maintain a current CPR/First Aid certification.

### Before Diving:

1. Submit dive plan [online](#). Your project submits one of these at the beginning of each field season to describe the dive operations being conducted.
2. Complete one practice dive under similar conditions of that which would be present during the dives submitted in your dive plan.

### After Diving:

3. Log dives [online](#).
4. [Report](#) any diving incidents or equipment failure online and to Dive Safety Officer.
5. Disinfect/clean all gear.
